

**RJ Spagnols** has been helping winemakers perfect the art of winemaking for over 50 years. We start by visiting the world's leading wine regions, where we select the very best grapes for our juice and concentrates. Our Research and Development team craft our distinctive wine kits with the perfect blend of varietals. The result is superior tasting wines for you to enjoy and feel proud to share with your family and friends.

### Ageing Tips

**Temperature:** 12-15°C is a great temperature to store your wines. Most importantly, reduce frequent temperature fluctuations.

**Storage:** Bottles are best stored on their sides to keep the cork moist.

**Humidity:** A relative humidity of 50-70% will keep the corks in a supple condition and keep air out.

**Sulphite Level:** If your wine is being aged for more than 6 months, add an extra 1/4 tsp to 23 litres of wine. This will ensure the safety of your wine.

**Light:** Try to keep the cellar dark when not in use. Avoid fluorescent lights—they emit UV light that can be harmful to your wine.

**Movement:** Constant agitation tends to disturb sediment, creating a haze.

### ★ Award Winning Wines

RJ Spagnols is a proud sponsor of the Winemaker International Amateur Wine Competition. Each year, winemakers showcase their winemaking abilities by entering their RJ Spagnols wines in the competition. We are proud to share their results from the 2004, 2005 and 2006 competition.
